# BEDLETTERSALE Commences To-Day.

We have made substantial reductions in the prices of our Cloth ing, and to convince the most skeptical that we HAVE DONE SO, we invite them to inspect our stock and see for themselves.  $- \mathrm{In}_{\mathrm{g}} \mathrm{RED} \mathrm{INK}$ we have marked our selling prices, which will show a reduction ranging from \$2 50 to \$5 per suit in both Rep's and Hoys' Clothing. This reduction applies to our entire stock of Clothing. A heavy Fall Stock, to arrive in the course of a few weeks, and lack of room for it, is our reason for reducing prices—thus enabling purchasers to procure reliable merchandise below the market price.

We have already given the various rate dering the paid on wheat its Ecrope and the theory and the refine the character relating to it. We now present a slight extends of the course of the market for this year. It must be remembered that there was over a million toms of flour and wheat to be access, and that for us that task was a Heruilean one. To do it we had to call ships from all parts of the wurld, and carrying all flags. Even steam was pressed into the service.

Knowing that this, for its, immense surplus was on hand, and that we had only a fraction of the tonnagen needed, it is no wonder that in July, 1881, the market went up to be and 6.2 is distinguish before the close of the mouth an engagement was made as low as 5.3.
